

CLIMATE ACTION, ENERGY AND URBAN AND TERRITORIAL REGENERATION CONSULTANT

Posted on 10/07/2024 by Naider

GENERAL JOB DESCRIPTION

Environmentalist or engineer or urban planner with postgraduate training and more than five years of experience in strategic processes of ecological transition, energy transformation and urban-territorial regeneration.

We are looking for people who are versatile, committed and curious about the processes of transformation of our environment; people who combine analytical and data management skills with capacity and interest in strategy formulation and planning.

JOB FUNCTIONS

Activate, manage and execute strategic consultancy services (environmental, energy and urban-territorial analysis and strategy) and management of actions in collaboration with public entities (administration and public agencies), scientific-technological agents and/or companies both at local level and in the national and European framework.

In addition, the NAIDER team also regularly participates in dissemination and training activities.

AREAS OF KNOWLEDGE

Climate Action: Adaptation and Mitigation. Environment. Ecological Transition. Energy Transition. Circular Economy. Urban Ecology. Sustainable Urban Planning. Green Infrastructure. Environmental Economics. Environmental Health. Energy Neutral Cities. Positive Energy Districts.

TIPOLOGY OF PROJECTS

- Environmental analysis at local and territorial level.
- Climate change and ecosystem services
- Studies of trends in environmental and climate parameters
- Analysis of environmental impact and environmental benefits
- Development of tools and methodologies for the quantification of environmental, climate and energy variables.
- Development of observatories for monitoring and follow-up of urban indicators.
- Geographic information analysis
- Urban Regeneration Plans

- Plans for the regeneration of industrial areas.
- Application of climate and environmental criteria in urban planning
- Energy Transition and Sustainable Urban Planning Initiatives
- Local Energy Action Plans
- Ecological Transition and Circular Economy Initiatives
- Local and regional strategic consultancy projects in collaboration with public and private agents.
- Design of public policies, drafting of sustainability plans.
- Revitalisation of territories in terms of ecology and sustainability.
- Carbon footprints of actions, events and companies.

LINKAGE MODEL

Joining the NAIDER staff with a permanent employment contract that can be reviewed annually (initial six-month trial period). The idea is to build a long-term professional career.

CONDITIONS

- **Remuneration:** Remuneration at Naider is very competitive and is based on the candidate's skills/experience/commitment.
- **Participation in results:** A part of the company's results is shared among the members of the team.
- **Flexibility:** It is a position that requires presence at the work centre to which the candidate is assigned, although this presence is combined with specific formulas for teleworking and other flexibility schemes to ensure a work-life balance.
- **Linkage:** the professional career at Naider leads people to become partners in the project.

MINIMUM EXPERIENCE

At least five years of professional experience relevant to the position.

WORKPLACE

LANGUAGES

Full competence in **Basque, Spanish** and **English**. Preferably, full competence in all three languages simultaneously.

APPLICATION PROCESS

Send us your application. We will manage it with absolute discretion and responsibility. We will contact those people whose profile seems to us more suggestive and suitable for what we are looking for.
