

VITORIA-GASTEIZ INDUSTRY SUPPORT PLAN 2025-2029

Posted on 13/06/2025 by Naider

The City Council of Vitoria-Gasteiz has promoted the development of its Industry Support Plan for the period 2025–2029.

Supported by Naider, this project aims to define a strategy to boost the city's industrial sector by taking into account current challenges and opportunities. To this end, the current state of the industrial landscape will be analysed and diagnosed, strategic objectives will be adapted, and a governance model will be defined to facilitate the participation of those involved.

This will provide the City Council of Vitoria-Gasteiz with a roadmap to strengthen local industry in areas such as competitiveness, innovation, sustainability, the energy transition, and talent attraction. Naider previously participated in the preparation, drafting, review and evaluation of the [Industry Support Plan for 2021-2024](#).
