

MONITORING OF THE 2023-2025 PROGRAMMING OF THE 2023-2030 'VITORIA-GASTEIZ EDUCATING CITY' EDUCATION PLAN

Posted on 19/06/2025 by Naider

Over the last few months, we have had the opportunity to work alongside the Municipal Education Service of Vitoria-Gasteiz City Council in **monitoring the 2023-2025 programming of the 2023-2030 'Vitoria-Gasteiz Educating City' Education Plan**.

The 2023-2030 'Vitoria-Gasteiz Educating City' Education Plan is the main tool for planning the municipal education policy. It also includes the Education Service's planning, guiding municipal intervention in education and establishing a long-term strategic framework.

The report resulting from the process analyses the **first programming of the Plan**, corresponding to the 2023-2024 and 2024-2025 academic years. It determines the **degree of implementation of the 91 actions** in the programming. It also identifies **strengths and weaknesses** in both the implementation of the programming and the Plan's management model.

The monitoring process was carried out through a mixed methodological approach, which included:

- A **quantitative analysis** phase, analysing more than 700 indicators.
- A **qualitative analysis** phase, involving four discussion groups with Education Service staff.

The results obtained are very positive and provide a solid basis for the design of the next programme for the period 2025-2027.

The executive report on the monitoring can be consulted on the [Vitoria-Gasteiz City Council website](#), in Spanish and Basque.
