

BIZKAIA TAKES OFF

Posted on 11/11/2015 by Naider

The commitment of the Basque council to internationalization and foreign trade is beginning to bear fruit, after the record numbers of Bizkaia in 2014 it seems that this year, again, green numbers will be seen in the Biscay province.

How can we find out through press.net foreign trade will reach levels of up to 9,300 million euros, without counting the

last four months of the year, that is, until September. In any case, and in the words of Imanol Prades, deputy for economic and rural development, "more and more companies are opening up to foreign trade," which generates significant value for the territory.
