

EGA MASTER, INNOVATION AWARD

Posted on 02/09/2016 by Naider

EGA Master from Alava has become the first hand tool manufacturing company to [obtained the Innovative SME](#) seal from the Ministry of Economy and Competitiveness.

The family business, installed in the Jundiz industrial estate in Vitoria-Gasteiz, provides services to world leaders in sectors such as the automotive, aeronautical and oil sectors, exporting more than 90% of its production to 150 countries. It

allocates 7% of its budget to R&D, an effort "five times higher than the sector average", and has developed more than 200 of its own patents.

EGA Master stands out for having developed its own intrapreneurship model, one of the key innovation paths for its success:
