INCREASE IN HOUSEHOLD SPENDING ON ENERGY

Posted on 22/10/2019 by Naider

In the Autonomous Community of the Basque Country, energy has gained a lot of weight in household spending in the last decade. On the one hand, the price of energy has increased notably, and on the other, since 2008 family spending on other items has decreased since 2008.

This and other information on energy consumption and dependence is available from the Gipuzkoa Energy Poverty Observatory.
