

SUPPORT PLAN FOR ENTREPRENEURIAL ACTIVITY IN THE BASQUE COUNTRY

Posted on 15/07/2014 by Naider

< /p>

On [next July 21](#), on [Department of Economic Development and Competitiveness of the Basque Government](#) will present the support plan for entrepreneurial activity . This [Inter-institutional Support Plan to Entrepreneurial Activity](#) aims to promote an inspiring culture, increase new business ideas and influence intra-entrepreneurship.

With this new plan it is intended to achieve a comprehensive vision, complete the support plans for existing entrepreneurship and have the participation of new entrepreneurs. In the presentation, three entrepreneurial experiences will also be presented.

An interesting initiative, which we would like you to take as a reference the Anglo-Saxon visions in which the need to analyze and also examine failed entrepreneurial experiences from which it is also important to learn is embedded.
