

TECHNOLOGICAL BONUS

Posted on 21/07/2014 by Naider

Under the [Economic Stimulus Plan 2014, Promotion of San Sebastián](#) has presented the [Technological Voucher](#), a tool to support the development of technological projects promoted by local companies and entrepreneurs through collaboration with R+D+i agents.

This is a program through which the selected projects will receive advanced services, studies and technical support that R+D+i agents can offer in products related to the development of new technological products or services. This idea begins with CEIT-IK4 as an R+D+i agent and it is expected that it will soon be extended to other Technology Centers.

We hope that the actions carried out thanks to this Technology Bond will have results and a positive impact on companies and entrepreneurs, beyond the returns they generate for the Technology Centers themselves involved.
