

TECNALIA RECOGNIZES THE CAREER OF JOSEBA JAUREGIZAR

Posted on 10/06/2016 by Naider

Joseba Jauregizar, General Manager of Tecnalia from 2008 until his recent retirement, has been honored as part of the annual event [Tecnalia Perspectives](#) held yesterday June 9, and from Naider, we would like to join to the well-deserved recognition of his career. Joseba Jauregizar, who was in charge of the Basque Government's Technology Directorate for more than 15 years, managed to articulate a complete network of technology and research centers at the service of Basque companies thanks to his determination and political commitment.

For this reason, for being the architect of the extraordinary progress experienced by the Basque system of science, technology and innovation, we awarded Joseba Jauregizar the Naider Action and Commitment Award a few years ago in the category of Innovation and Smart Economies.
