

THE ALCHEMISTS

Posted on 16/07/2014 by Naider

Neil Irwin, author of *The Alchemists*

[Neil Irwin](#), a columnist for The Washington Post and editor of the Post's Wonkblog website, recently published the book "[The Alchemists](#)"

Irwin takes a tour from the beginnings of the Central Banks, to the Greenspan years and shows the different personalities of the people who have great power over society in general, the story really focuses on what these powerful decided to do.

"The Alchemists" recounts the most intense years that the world economy has experienced in recent history, and tells us a day by day of a period that has changed the world.
