

# ACCELERATING THE CIRCULAR ECONOMY IN EUROPE

*Posted on 06/04/2024 by Naider*

Europe's heavy dependence on material, food and fuel supplies is leading to significant environmental degradation. Given this dependence, it is crucial to prioritise the reduction of resource use and move towards a less material-intensive European economy.

The [European Environment Agency's report](#) provides an analysis of the state of the transition to a more circular economy in Europe and the recent political momentum, as well as options and prospects for accelerating it further.
