

ACCELERATING THE CIRCULAR ECONOMY IN EUROPE

Posted on 06/04/2024 by Naider

Europe's heavy dependence on material, food and fuel supplies is leading to significant environmental degradation. Given this dependence, it is crucial to prioritise the reduction of resource use and move towards a less material-intensive European economy.

The [European Environment Agency's report](#) provides an analysis of the state of the transition to a more circular economy in Europe and the recent political momentum, as well as options and prospects for accelerating it further.
