

NEW POLICY APPROACHES TO PROMOTE REGIONAL INNOVATION ECOSYSTEMS: THE CASE OF SPAIN IN THE EU CONTEXT

Posted on 07/05/2024 by Naider

The report '[New policy approaches to promote regional innovation ecosystems: the case of Spain in the EU context](#)' of the Ministry of Science, Innovation and Universities illustrates the recent evolution and future prospects of policies to support regional innovation ecosystems, pointing to the progress made towards a new model of multilevel governance of science and innovation policies, with a territorially oriented vision.
