

EUROPEAN INNOVATION POLICY: ESCAPING THE MEDIA TECHNOLOGY TRAP

Posted on 24/04/2024 by Naider

The EU lags behind the US and China in innovation. With Europe's competitiveness positioning a priority, a [report by economists from Germany, France and Italy](#) advocates focusing R&D investment on high-tech industries.

The report recommends reforming the European Innovation Council (EIC), modelled on the US Advanced Research Projects Agencies (ARPA).
