Today we are asking about your proposals for Euskadi to Carlos Cuerda, founding partner of Naider and talks to us about the need to start a global process of institutional rationalization in Euskadi.

**IDEA FOR THE BASQUE COUNTRY #6:** Rationalization (read updating, integration, dismantling and/or reinforcement) of the important para-institutional framework made up of agencies, entities, companies, societies, para-public foundations and other satellite organizations of the Administration itself that act through various legal and associative formulas and that have emerged over the last 30 years to satisfy different objectives and overcome the different challenges that the Government has been facing. It is time, perhaps, for a rethinking based on reason, efficiency and transparency.
