

VIDEO: HOW THE BLOCKCHAIN WORKS

Posted on 25/03/2019 by Naider

The [Blockchain](#) focuses much of the technological debates current: is it a revolutionary technology like the Internet in its day, or a fad? It consists of a technology that promises to solve the problem of authenticating ourselves on the Internet, without the need for the intervention of an authority that manages and stores the data. This video made by Savjee explains it in a simple way.
