

# **VIDEO: TECHNOLOGY TO TRANSFORM THE CITY**

*Posted on 23/05/2019 by Naider*

**In 2050, two thirds of the world's population will live in cities, and this rapid urbanization process is accompanied by major challenges: energy consumption and the significant contribution of cities to air pollution, the difficult access of much of the population to solutions worthy of habitability, the congestion of motorized traffic in the accesses to the city, etc. This video from The Economist presents technologically innovative solutions to the challenges of urbanization.**
