

NAIDER 2024/1: "A YEAR OF NEW PATHS"

Posted on 22/01/2024 by Naider

In our winter [publication](#), we share keys and tools to address new paths in the economic transformation and ecological transition of cities and territories, highlighting the analysis with practical lessons for the deployment of the Circular Economy in the manufacturing industry. Here are the contents of this issue:

Analysis

[Circular Economy in the Manufacturing Industry: Practical Lessons](#)

Keys to transition

- [Transformation and regeneration of the urban and industrial environment. Opportunity to dream: time to act](#)
- [Transformation of areas with disused or degraded land in urban centres for the creation of innovation poles](#)
- [HACEX. Competitiveness Self-Assessment Express Tool](#)
- [Environmental Health breaks into Urban Planning for Cities of the Future](#)
- [Digital Product Passport \(DPP\): Drivers of the Circular Economy](#)
- [Sustainable packaging: Circularity as a response to the regulatory “earthquake”](#)
- [School Agenda 2030: Driving the social transformation of the municipality from the classrooms](#)
- [Laws, the means to Energy Transition; social change, the sure way forward](#)
- [The branding of a public institution in the eyes of the citizens it serves](#)
- [Dual Training: Collaboration between University and Business to train professionals in real environments](#)

Projects

- [Promotion of the Innovation Pole in the Sea and Sliding Industry](#)

- [Review and Evaluation of the Vitoria-Gasteiz Industry Support Plan 2021-2024](#)
- [Estimation of the Advance R&D Indicator in the Basque Country 2023-2024](#)
- [Dynamisation of the Regional Energy and Climate Plan of the Bidasoa region](#)
- [Training course on “Sustainability, energy efficiency and mobility”](#)

Conversation

[Dr. Salem Gharbia, Leader of the H2020 SCORE Project](#)

Current affairs

- [Copenhagen Project House, centre for social entrepreneurship](#)
- [Vilnius, Viladecans and Treviso win European Green City 2025 awards](#)
- [A solar-powered world will be possible sooner than expected](#)
