

NAIDER 2025/3: "EUROPE AT A CROSSROADS"

Posted on 31/07/2025 by Naider

In our summer publication, we shine the spotlight on the courageous responses emerging from cities, regions and communities as they prepare to face the future. Amidst global uncertainty, political paralysis and democratic setbacks, transformative initiatives are emerging that reaffirm European values such as sustainability, cooperation, innovation and civic engagement.

We explore analyses of the knowledge economy, climate planning and new urban models, alongside specific case studies from regions dedicated to fairer and more resilient development. This edition offers an open look at the future, complemented by a review of the projects and initiatives that we have been working on at NAIDER during the second quarter of 2025.
