The 2024 **Bizkaia Orekan Sakonduz** call for proposals to boost regional competitiveness is open until 8 May.

This year's priorities are related to four major concerns of the Department of Economic Promotion: the articulation of collaborative governance spaces, the design of county strategic plans, the implementation of tools for knowledge and interaction with the business fabric, as well as the design or redesign of instruments to support local and county business development.

NAIDER offers counties and municipalities not only our **capabilities and** general strategic and management consultancy **tools**, but also some **specific products** that we have successfully implemented in different environments and that may be of interest to you.

In any case, at NAIDER we offer the capacity to manage requests and to subsequently implement the actions within the framework of our commitment to the territory, proximity and professionalism.

If you have any queries, please do not hesitate to contact our team.
