[Barakaldo City Council](#) will be assisted by NAIDER in the preparation of the Strategic Plan for the Second Social and Urban Transformation of the city.

Barakaldo is immersed in its second great transformation as a city, whose priority areas are social and urban transformation. In 2020 the municipality began to work on its own Urban Agenda project. Once this strategic tool has been socialised and established, the aim is to promote the transformation of the city by aligning it with the plans that have been developed by the different municipal areas and departments, adding projects of interest, and detecting opportunities for improvement.

Through the strategic plan the aim is to improve the quality of life of the citizens of Barakaldo, promote sustainable economic development, and efficiently manage public resources and services.
