Shocking video of what is happening in Gaza. Music, testimonials, images, looks. All impressive because impressive is what is happening in Palestine. Naider is not a political movement but we cannot remain outside of this madness.

From here our denunciation of the atrocious savagery used by Israel and our greatest contempt for those who use terrorism, violence and war as a means of struggle. Our most emphatic rejection of the complicity of a large part of Israeli society. Also our unmitigated rejection of the behavior of what is called the international community, which is nothing other than ourselves.

ENOUGH!!
