As part of the strategic reflection process in the Oarsoaldea region, more than 100 people took part in five days of work, discussion and debate last week.

The five forums addressed key issues such as social inclusion and cohesion, consumption and tourism, sustainable urban regeneration, the Basque language, and the economy, business and industry. This participatory exercise complements the work that has been carried out in recent months with economic, social, educational and institutional stakeholders in the region. The aim is to develop the Oarsoaldea Transformation and Competitiveness Strategy for the next 10 years in the form of a [Strategic Action Plan](#).

The development and consultation process is expected to be completed after the summer. At NAIDER, we are providing [Oarsoaldea Garapen Agentzia](#) with technical support in the different phases of the process.
