

INITIAL CHARACTERIZATION STUDY AND NEEDS ANALYSIS FOR THE INTELLIGENT AND COMPREHENSIVE REGENERATION OF THE ALTZA NEIGHBORHOOD IN DONOSTIA.

Posted on 04/03/2020 by Naider

Category: [News](#)

The

project consists of technical assistance in the process of characterizing and delimiting the needs of the Altza neighborhood from the perspective of sustainable and intelligent regeneration and transformation of the neighborhood: housing rehabilitation, provision of services, naturalization and transformation of public space, etc.
