Last Friday, February 2, the Naider Team met in Bilbao to round off the internal reflection process that we started in December and that we carry out every year.

The joint reflection with all the people who build Naider serves to value the consolidation achieved by the Team in the areas of action that we work together with collaborators and clients, the new paths taken both thematically and geographically, as well as to specify plans and ideas to face the challenges that await us in the coming months.

In 2024 Naider will celebrate 20 years of trajectory and we are full of projects and initiatives. We will continue to share news with everyone very soon. Mila esker guztioi!
