Category: News

NAIDER collaborates with leading organisations such as LeartibaiFundazioa (formerly Azaro Fundazioa) and the OSI Ezkerraldea-Enkarterri-Cruces belonging to the Basque Health System (Osakidetza) in a pioneering cross-border project aimed at incorporating Circular Economy practices in the health sector.

The HEALCIER project, funded by the Interreg POCTEFA Programme, aims to implement the circular economy within the value chain of the health sector in the regions of the Greater Aquitaine, Euskadi and Navarre. The aim is to identify areas of opportunity for the implementation of circular practices that allow the reduction of environmental impact while maintaining or improving the quality of care. Naider's role in the project is to provide technical assistance as an expert entity in Circular Economy and sustainability in some of the project tasks.
