NAIDER has moved to a new work centre in Bilbao. It is a modern, multi-purpose space with meeting and mixed-use rooms. It is located in the heart of the city centre, in the Isozaki Atea complex overlooking the Bilbao estuary as it passes through Urbitarte.

We become 20 years old this 2024 and we continue to take on new and increasingly ambitious challenges that require new capacities and new facilities to reinforce the team of professionals who bring to life the processes of transformation of cities and territories in which we are involved.

All of you who follow us, those of you who are clients, collaborators or simply know us, already know where you have your new space to stay when you are in Bilbao. Our meeting rooms and shared spaces are at your disposal whenever you want to use them.

In addition to the new headquarters in Bilbao, you can still find us in the San Sebastián work centre and in other cities such as Valencia or Madrid where we are represented through our extensive network of collaborators and friendly companies.
