The Board of Directors of the Association for the Revitalisation of Metropolitan Bilbao has agreed to incorporate Naider as an ordinary member. We are very happy to officially join Bilbao Metropoli 30, a reference entity for the revitalisation of Metropolitan Bilbao through strategic thinking and the promotion of urban innovation projects.

As part of its dynamic work, Bilbao Metropoli 30 has successfully launched this year The Bay Awards, a connecting platform and showcase for urban projects and initiatives of outstanding international success. After the premiere held in October, the call is now open to relevant entities from all over the world to apply for the awards in its first edition. NAIDER is pleased to collaborate with Bilbao Metropoli 30 (together with great friends such as Tecnalia, Gaia and TechFriendly) in the implementation of the initiative and also in the analysis of the nominations for the awards to be presented in October 2024.

Many thanks to José Antonio Garrido, Idoia Postigo and all the team!
