Naider has collaborated with Errota Fundazioa in the articulation of new opportunities for collaboration and collaborative governance for the economic development of Arratia.

The project explored the work carried out in recent years by Errota Fundazioa (a public-private entity of reference for regional development) and proposed complementary options for collaboration between agents in the region.

The objective was to strengthen governance, unite wills and align all the capacities of the region in order to position Arratia within the economic environment of Bizkaia to ensure that the existing companies in the region have the necessary infrastructures and equipment.

The governance model is also committed to aligning all industrial spaces, technological facilities and high-value services to favor the attraction / generation of new business projects of greater technological intensity that generate stable and quality employment in a region with a long industrial vocation that has companies of international reference.
