

SCORE - SMART CONTROL OF THE CLIMATE RESILIENCE IN EUROPEAN COASTAL CITIES

Posted on 15/07/2021 by Naider

Category: [News](#)

(English -- Castellano)

We are very happy to announce that today the SCORE project in which we co-lead WP2 has started!!

The kick off meeting is taking place virtually between 15th and 16th of July.

Briefly we would like to post here that SCORE is a EU H2020 research project aiming to apply citizen science, participatory engagement methods, Smart technologies and Ecosystem-Based Solutions (EBA) to increase climate resilience of European coastal cities through the Costal City Living Lab (CCLL) framework. Starting now, the project will end in 2025.

We
will be working with 10 cities among Europe to embrace their climate resilience.
Barcelona, Benidorm, Dublin, Gdansk, Koper, Oieras, Massa, Oarsoaldea, Samsun
and Sligo there we go!

Thank you
you for trusting in Naider! We are looking forward to contributing to the
project.

Stay tuned. [Linkedin](#) [Twitter](#) < /p>

We are
very happy to announce that today the SCORE project has started in which
we co-lead one of the work packages (WP2)!

The launch meeting is taking place online between July 15 and 16.

Briefly, we would like to post here that SCORE is an EU H2020 research project that aims to apply citizen science, participatory engagement methods, smart technologies and Ecosystem-Based Solutions (EBAs) to increase the climate resilience of communities. European coastal cities through a framework on the Costal City Living Lab (CCLL). Starting now, the project has a deadline of 2025.

We will work
with 10 cities in Europe to work on their climate resilience. Barcelona, Benidorm,
Dublin, Gdansk, Koper, Oieras, Massa, Oarsoaldea, Samsun and Sligo, here we go!

Thank you for trusting Naider!
