SODENA, the public company of the Government of Navarra specialising in the promotion of economic and business development, has accredited NAIDER to support initiatives of high strategic value for the region through strategic consultancy services, socio-economic analysis and technical support for public projects.

SODENA (the Development Corporation of Navarra) is the financial and business promotion instrument of the Government of Navarre, playing a key role in supporting competitiveness, innovation, the sustainable transition and the attraction of flagship projects. Through a Dynamic Purchasing System (DPS), SODENA selects organisations with proven expertise in territorial analysis, public policy and sustainable development to support both the public administration and Navarra's economic fabric in the definition and implementation of strategic policies and projects.
