Today we took part in the event marking the 10th anniversary of [Bizkaia Orekan Sakonduz](#), a key initiative for driving comarca and local development across Bizkaia.

NAIDER has been connected to this programme practically since its inception, providing sustained support and impetus to territorial revitalisation processes across comarcas such as Durangaldea, Arratia, Lea Artibai, Nerbioi-Ibaizabal, and Uribe Kosta, as well as in municipalities including Amorebieta-Etxano, Barakaldo, Bilbao, Durango, Ermua, Etxebarri, Galdakao, Getxo, Leioa, Ortuella, and Plentzia, among many others.

We would like to congratulate the **Provincial Council of Bizkaia** for having launched and sustained over time an initiative that has contributed decisively to strengthening local capacities and creating spaces for territorial collaboration.

We hope this anniversary serves as a new starting point to reinforce the commitment to capacity-building, the empowerment of local actors, and the construction of a shared future grounded in collaboration and territorial cohesion.
